DISCOVER A SAFE SOLUTION
FOR YOUR BUSINESS

3 IMPORTANT FACTS
about the
VIRUS KILLER
ozonator

up to 500m²
our stationary air and surface ozonator can handle this area in 30 minutes!

high power - up to 50g/h of ozone
our proprietary solution generates this amount with both stationary and mobile devices for disinfecting vehicles, public transportation, and car fleets

multiple devices
allow for the disinfection of larger areas simultaneously - over 500m²

3 UNIQUE FEATURES
OF OUR OZONATOR

HEPA 14
Activ Carbon

Air purification from pollutants using activated carbon particles. This is the first stage of purification.

UV-C Philips
Lamp Air Sterilization

Philips UV lamp used in the purifier kills microorganisms that were not eliminated in the first stage.

Ozon O3
Surface Disinfection

Ozone air function completely eradicates microorganisms in rooms up to 500m² and on surfaces.

SEE FOR YOURSELF

Certification					

*Ozone decay and proper disinfection should last 3.5 hours after the device stops working. This time can be shortened by thoroughly ventilating the rooms.

COMFORT AND SAFETY
IN YOUR COMPANY

One-time room disinfection service performed
by an external company is a significant financial burden.

**Our offer is a real saving
of your money.**

The cost
of renting the Virus Killer ozonator
is only
499 PLN per month

The subscription includes delivery of the ozonator
to the company and its full service along with operating
costs, including filter and lamp replacement.*

By choosing our ozonator, you guarantee that your
customers and employees will gain comfort and safety.
Clean air also means better employee productivity,
and above all - **enjoying better health!**

*There is also an option to purchase the device outright and separately
order the service. Feel free to contact us for details.
